PROFESSIONAL EMPLOYMENT HISTORY

High Point University, Clinical Education Coordinator, August 1992 to present.

Responsibilities: Development, coordination, and oversight of the clinical education plan for the athletic training program, ensuring compliance with current CAATE standards. This includes the development, implementation, tracking and evaluation of student clinical electronic portfolios (clinical hours, patient encounters, student & preceptor evaluations), preceptor development and evaluation, regular written and verbal communication with preceptors, student assignment to clinical sites and tracking of required clinical experiences/exposures, recruitment of clinical affiliate sites. Implement and onboard students and preceptors in the use of online tracking systems (current -Typhon; former – TASKSTREAM) for student clinical experiences across the clinical education plan. Collaborate with Health Systems to onboard students in compliance with organizational requirements utilizing online software programs (CastleBranch, MyClinicalExchange).

High Point University, Associate Professor, August 2024 to present.

Responsibilities: Assist with the updating of existing courses and development of new courses to meet the latest edition of the CAATE professional program content standards and Program goals. Prepare, teach, and manage assigned courses. Advise assigned students toward successful progression in the program, graduation, and professional goals.

High Point University, Assistant Professor, August 1996 to present.

Responsibilities: Assist with the updating of existing courses and development of new courses to meet the latest edition of the CAATE professional program content standards (formerly, NATA Athletic

Training Educational Competencies) and Program goals. Prepare, teach, and manage assigned courses. Advise assigned students toward successful progression in the program, graduation, and professional goals.

High Point University, Assistant Athletic Trainer, August 1992- December 2008.

Responsibilities: Day to day operation of assigned athletic training room and provision of health care service to assigned High Point University sport teams, including travel with women's basketball. This includes the daily supervision of athletic training students, mentorship of assigned graduate assistants, inventory and supply request, organization, and implementation of the pre-participation physical examination for all sport teams, regular maintenance of the athletic training room, physician communication, and medical documentation.

High Point University, Instructor, August 1992 to August 1996.

Responsibilities: Assist with the updating of existing courses and development of new courses to meet the latest edition of the NATA Athletic Training Educational Competencies and Program goals. Prepare, teach and manage assigned courses. Advise assigned students toward progress in the major, graduation, and professional goals.

High Point University Basketball Camps, Head Athletic Trainer, Summer 1993-1995.

Responsibilities: Coordinate athletic training student and staff coverage of multiple camp venues. Day to day operation of main athletic training room and provision of health care service to camp attendees including assessment of injury and medical conditions, coordination of physician and hospital referrals, communication with physicians and parents, and medical documentation.

Thurston High School, Springfield, OR, Head Athletic Trainer, August 1991- June 1992, **Assistant Athletic Trainer**, August 1990- June 1991.

Responsibilities included: providing athletic training coverage for football and other assigned athletic teams, including prevention, injury evaluation, medical referral, rehabilitation, and practice and game coverage. Additional responsibilities as Head Athletic Trainer: development of budget proposal, inventory, ordering of needed supplies, communication with administration, coaches, and parents, and mentorship of the assistant athletic trainer.

CURRICULUM DEVELOPMENT, High Point University, 1992-current

Updated existing courses and developed new courses to meet the latest edition of the CAATE Content Standards (formerly -NATA Athletic Training Educational Competencies) by reviewing syllabi for course content, identifying areas of weakness, and collaborating on decisions to make course and curriculum changes. Developed assigned syllabi for proposed 3-2 Master's in Athletic Training Program. Assisted ATP Program Director with accreditation self-study report and on-site documents.

CLINICAL EDUCATION PLAN DEVELOPMENT, High Point University, 1992-current

Created and updated athletic training student (ATS) clinical proficiency and psychomotor skill evaluation tools for the freshman through senior year in accordance with the *"Learning Over Time"* accreditation requirement, compiling the components into color-coded booklets. Transitioned the clinical proficiency and psychomotor skills evaluation tools from paper to an electronic portfolio system (Taskstream) to meet the 4th Edition of the NATA Athletic Training Educational Competencies. Again, updated to meet the 5th Edition of the NATA Athletic Training Educational Competencies. Setup custom fields and inputted all student, preceptor, and clinical site data including required supporting documents in Typhon for the MSAT program. Utilized the EASI Evaluations function of Typhon to create and activate MSAT related evaluations and other documents. With the introduction of the 2020 CAATE standards, reviewed and updated clinical courses and associated documents and evaluations to

align with the new curricular and core competency standards. Introduced the utilization of standardized patients and developed cases and established a robust Objective Structured Clinical Exam (OSCE) matrix for athletic training clinical progression throughout the curriculum.
